# The Plan: Medicaid

---

## Since FY 2007:

- Medicaid capitated populations have grown 46 percent leading to the current population of 1.2 million members
- General Fund support for Medicaid has grown almost 65 percent
- The percent of the General Fund dedicated to Medicaid has grown from 17 percent to 29 percent

# The Plan: Medicaid

---

## Proposition 204 Rollback:

- In 2000, voters expanded Medicaid coverage to all residents at or below 100 percent of the federal poverty limit
- FY 2012 General Fund support for the expansion population is estimated to be \$810 million

# The Plan: Medicaid

---

Federal Health Care Reform limits states ability to change Medicaid eligibility levels. However, the Centers for Medicare and Medicaid Services (CMS) has the authority to waive that requirement.

The Executive recommends the Legislature provide the authority to seek a waiver as described. The Executive cannot apply for the waiver without specific authority.

Because of the anticipated timeline to receive a waiver, the Executive recommends the change in eligibility be effective on October 1, 2011.

# The Plan: Medicaid

---

## Prop 204:

- The Executive recommends limiting Prop. 204 costs to dedicated tobacco settlement and tobacco tax revenues
- To achieve these savings, the Executive recommends eliminating coverage for childless adults and spend-downs as well as capping TANF parents at a level that can be sustained by tobacco funds

2. Provide \$10.3 million to DHS to fund prescription drug coverage for the estimated 5,200 SMIs who will lose Medicaid eligibility.

# The Plan: Medicaid
